Respected Prime Minister Sir, Govt. Of India,

...post 'COVID 19' suggestions.

Sir,

The following are some actions may be taken after this pandemic to make Indian society and nation empowered.

1. Health education and disaster management must be included in the syllabi of various courses from primary class to Ph.D. course work etc.

2. The second green revolution must be initiated to reform the agriculture sector. Every farmer must be given a monthly salary and he /she may be empowered to decide the price of his /her product. The practical Crop insurance should be made compulsory and insurance company may be rotated annually district wise.(Prof.Neeraj Sharma,Dept. Of Sanskrit, Mohanlal Sukhadia University, Udaipur has done an excellent research work on ancient agriculture system of India. He may be contacted).

3. A special bond may be issued by govt. to collect money for development schemes.

4. Muslims of the country should be made socio-economically equal to other communities, otherwise no law and order or social harmony problem will be addressed effectively.

5. There may be multipurpose centres at each district and panchayat samiti level to accomplish disaster management( like quarantine centers), elections, sports, cultural, conference and other activities. These may also earn money by giving their buildings on rent. ✓

6. An effective administrative work culture policy may be adopted by the country since there is no change in bureaucratic phenomenon.( Example-Recently medical and health dept. Govt of Raj.had issued a letter to the district collectors for temporary recruitments but no e.mail id was given to receive applications since surface post is not operational and no one is allowed to go out,).

7. A comprehensive accountability and common sense policy or law with making fundamental duties compulsory must be framed for each citizen activity. I have submitted this suggestion to you on Jan.10, 2020 however it is the victim of bureaucratic evils (copy enclosed).

2020 however it is the victim of bureaucratic evils (copy enclosed).

Prof.S.K.Kataria, Dept.of Pub.Adm., Mohanlal Sukhadia University, Udaipur.
