Sir

This is in reference to the news published in news papers about the committee to decide modalities of remaining examination in Universities of Rajasthan( Ref- COVID19).

Kindly take the these suggestions in to consideration-

1. Only remaining examinations of final year( UG/PG) may be conducted because many students appear in due papers also.
2. For first year students give average marks of coming second year( 2021) and third year ( 2022).
3. For second year students give average marks of first year(2019) and third year (2021).
4. For PG previous students promote them in PG final year and give average marks of final year -2021.
5. Waive off all UG compulsory papers since they are passing papers only.
6. All precautions of sanitization and anti-spread mechanism of infectious diseases must be followed even after corona threat is over.

Regards  
S K Kataria
