The Prime Minister &  
Govt of India, New Delhi.

Sub:- Urgent administrative reforms for NPS and accountability at every level.

Sir,

I need to submit some suggestions for better governance-

1. NPS versus OPS is a serious concern for both government and employees because pension is a heavy increasing financial load on governments and meagre pension from NPS is leading to less secured post-retirement life. In this government can do-

- A. Invest the amount of NPS in three options PPF, govt debt securities and equity in equal proportion. There must be some fixed or assured minimum return on this investment.
- B. After retirement govt must give Dearness allowance on monthly annuity. OPS is no way an option in present era.

2. There must be an Accountability Act for all citizens and govt employees for each and every activities of life for example- having dogs and pets in houses with license and certain rules only, not leaving any bore well open during digging process, not to force any person to go down in sewer line without safety measures, etc so many issues.

3. Government should not give free food to prisoners rather it must be levied on the close relatives of the prisoners.

4. Those government employees who take illegal exemption on toll must be checked by the employer only. The solution is that the toll plaza must take copy of Identity card and copy of vehicle registration and same must be sent to concerned employer for necessary disciplinary action against the employee for taking undue rebate on toll plaza.

Hope you will take necessary action.

Copy to  
1. C.M. sir Rajendra.
