Prime Ministers Office

Grievance Description

Housing and Urban Affairs >> Schemes, Programs & Other Divisions under MoHUA >> Swachh Bharat Mission Division >> Matter related to Swachh Bharat Mission (Urban) >> Suggestions/request related to Swachh Bharat Mission

Sir

The household garbage collection mechanism adopted in last few years is not working satisfactorily. I have experiences of two cities- Mansarovar Jaipur and New manglam complex Udaipur. There are certain practical issues related with this mechanism which need immediate policy reforms-

1. A colony or mohalla based big dust bin have been removed from each colony, so people are helpless to dispose off the garbage in case of not collecting up the garbage by the assigned vehicle.
  2. People throw the garbage in unoccupied plots of unfinished houses.
  3. The vehicle responsible for collecting the garbage do not come daily and on a fix time.
  4. The person who is a single occupant of a house and goes to office or elsewhere for earning the livelihood or for studies is unable to give garbage to trolley man.
  5. No vehicle man picks up the garbage from houses even there is old man or patient in house. There is a common scene that after listening the song of vehicle men - women stand in front of their house with garbage in hands and no one knows how much time they have to wait.
  6. No vehicle collects dry and wet garbage separately.
  7. Vehicles usually do not reach to main roadside houses or a single house in a street or a house which gives or produces less garbage.
- I must say that this is the most failure initiative of the Modi government and the entire country is dirtier than ever- before. Kindly look in to matter and, at least, install a big dustbin at each corner of street covering 25-50 houses.
