Sub.- Request to accept PIL regarding control of straw animals.

Ref- Some videos and news on the attacks by bulls in Indian cities.

Sir,

It is requested that there are numerous straw animals wandering in each street of Indian Cities and they usually attack on children, women and old persons. So many serious and very sad incidences have been taken place in recent years especially by bulls and dogs. I am enclosing here a video of Sojat City Rajasthan where a girl was attacked by bulls. It is very painful video. May please watch it.

On the other hand, there is a new trend and fashion among urbanites to have pets. However very few people follow the rules and etiquettes while walking on roads with their pets. So, some new social problems have been surfaced due to this fashion.

It is my humble request to you, to kindly issue some guidelines to Union and State governments to control straw animals to make life of citizens safer. My suggestion is that we may have a mechanism of registering each domesticated beast and pet and a unique JEEVAADHAAR number may be given to each animal so that the owner of a straw animal can easily be identified or traced out.

Kindly put up my PIL or application or request before CJI sir.

Enc.- Pen drive with three Videos

Regards

Yours faithfully
