Dear Managers of

1. Alkem- Maxxio
2. P .and G. health

Sir,

Kindly find enclosed photo of two capsules Evion (vit. E) by Procter and Gamble Health ltd and Aeromore (hot water inhale material for nose congestion)by Maxxio- Alkem

Both capsules look same i.e.green in transparent packaging and anybody can take/ ingest cap Aeromore (instead of Evion) by mouth, accidentally, and this may be harmful because of its ingredients- terpineol, eucalyptus oil and camphor.

We are living in India where such awareness is not there to read minor instructions given on cap Aeromore.

My suggestion is kindly hold a common meeting of both the companies and change the outer look of any one product to avoid confusion and accidents.

Regards

Dr. Surendra Kataria

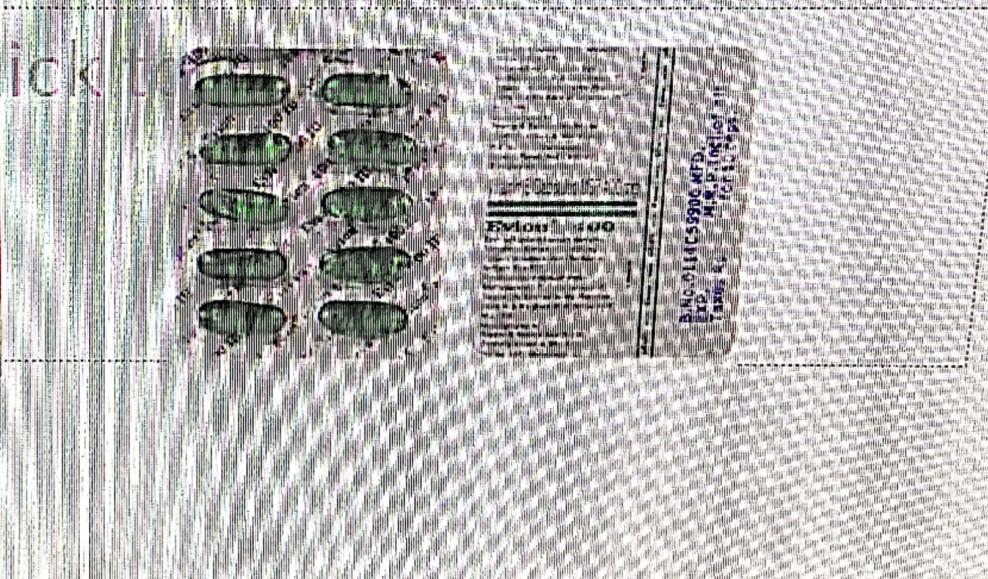

Retd. Prof.Pub. Adm.

Two capsules with same looking

Aeromore and Evion

(Maxxio) (P and G Health)
